# SURFACE SIGNS

Surface Signs are the experts when it comes to Thermoplastic. Preformed Thermoplastic is a tried and tested way of putting graphics on the ground - and its competition doesn't even compare. While most paint products will wash away, lose color, and get dull, our product will last 6-8 times longer without losing color or detail. Whether you are a landscape architect, playground designer or just a small business looking to spice up your open space, Surface Signs is the choice to make! As you can see, we have worked with numerous planners and designers in order to fit their needs and budgets; whether it be custom designs, or custom sizes of our catalogue's choices- our in-house designers are available to help you along every step of the way! Surface Sign's standard designs can be made to fit your specific space and we have over 20 colors to choose from. Surface Sign's graphics cover everything you would need for coloring and enhancing your outdoor spaces. Our products provide a safer, exciting, cost-effective,

educationally and physically stimulating nature based play area- a great way to enhance environmental awareness and education. Surface Sign's available designs include classic playground games (hopscotch, mazes, sports courts), educational graphics and games, tips on healthy eating, and even road safety; we have everything you need to transform your concrete and asphalt areas into inspiring, fun, and educational areas for all. Be it a poem on a bike path, a way finder for guidance, or a business logo. Treat your open space like a blank canvas and watch Surface Signs bring it to life!

- Non-Slip
- Non-Toxic
- Self-Cleaning

- No Size Restrictions
- Lasts 6-8 times longer than paint
- Impervious to Salt, Gas, and Oil

Healthy eating is a very important part of a child's daily routine. We believe that familiarising children with fruit and vegetables is the first step to a healthy diet. Surface Signs designed these graphics to be fun playground pals, as opposed to something our kids **HAVE** to eat!

# SUN CLOCK

STAND ON THE MONTH  
YOUR SHADOW TELLS  
THE TIME

The Human Sun Clock  
20 ft x 13 ft (Approximate; varies by location)

The Human Sun Clock is one of our unique markings. A Human Sun Clock is an Interactive sundial which works when a person stands on the current month their shadow tells the current Clock time. Each sun clock comes with its own precise set of co-ordinates, and is unique to its location. Using the Installation address, along with the Latitude and Longitude co-ordinates and a series of complex calculations and equations, we calculate the exact dimensions to be marked out on the ground in order to give you a functional and accurate time reading when a human shadow is cast.

# SYMBOLS

Handicap Symbol (w/ arrow)

3 ft x 4 ft 6 in

NYC Bike Trail Symbol  
4 ft x 3 ft

Straight Arrow  
1 ft 4 in x 4 ft

# CUSTOM DESIGN

Do you have a playground that you are looking to design? Do you want to spice up your business with your own custom-made logo on the ground with high-quality detail and color? On the other hand, do you simply want some lettering or way finders done for your parking lot/store? Surface Signs can make all of these ideas possible. With our custom option, you can work with our in-house designers to replicate just about any graphic you could imagine. We aim to be the best at replicating logos and design. We are able to reproduce exact replicas of existing signage or offer a redesign service through our own art department. Any corporate logos will be manufactured in our own factory from the highest-grade materials and installed by our own installers. Thus, we are able to ensure our quality control systems adhered to. Multi-national companies have appreciated the benefits of having customized car park markings and surface signage to distinguish its image. Our lineage is preformed to an exact width and is placed in

position before fixing so that exact specification can be achieved. So do you use this opportunity to impress your customers with your own personal corporate image or do you miss the opportunity? We have only just begun the utilization of surfaces for advertising.

We look forward to servicing your signage needs.

*Surface Signs*
